# INDEX.

*Abrus precatorius* Seeds, Analysis of, 163
Alder, Joshua, on New British Polyzoa, 304
Allman, Professor, on a New Fossil *Ophiuridan*, from Post-pliocene Strata of the Valley of the Forth, 149
Aluminium, on the Manufacture of, by Isaac L. Bell, 295
Ammonia in the Blood, by Dr Davy, 311
Animal Life, Geographical Distribution of, 306
Armstrong, Sir William, on the Consumption of Coal in Britain, 333
Balfour, Professor, Notice of *Pandanus odoratissimus* in Flower in Edinburgh Botanic Garden, 162
——— on the Fruit and Seed of *Clerodendron Thomsonæ*, 258
——— on a Botanical Trip to Kielder and Deadwater Fell, 328
Baxter, H. F., on Muscular Power, 194
Bee-hive British Dwellings near Penzance, 187
*Bentinckia Condapana*, 331
Bewley, James, Description of a Plant-house at Rockville, Blackrock, near Dublin, 240
Blast Furnaces, Deposit in, 295
Bones in Drift, 334
Botanical Society, Proceedings of, 162, 322
Botanic Garden, Edinburgh, Flowering of *Pandanus odoratissimus* in the, 162
——— Register of Flowering of Spring Plants in the, 163, 165
Boulder-clay (Till) of Caithness, Fossils of, 159
Brady, H. B., on Foraminifera new to the British Seas, 305
British Association, Proceedings of, 283
Bromide of Ammonium, Physiological Effects of, by Dr G. D. Gibb, 310
Brown, Rev. Thomas, on a Clay Deposit with Fossil Arctic Shells in the Basin of the Forth, 148
Bryson, Alexander, on the Evidence of the Rise of the Shores of the Firth of Forth, 161
Carex, Remarks on the *Perigynium* or *Utriculus* of, 325
Chemical Manufactures on the Tyne, by J. C. Stevenson, 294
Cinchona Bark in India, 168
——— Cultivation in India, by Dr Cleghorn, 330
——— *Succirubra*, grown in India, its qualities, 331
*Clerodendron Thomsonæ*, Fruit and Seed of, 258
Climate, Great Mixed Forests of North America in connection with, 244
Coagulation of the Blood, by Professor Lister, 333
Coal, Consumption of, in Britain, 333
——— in the Red Measures, 299
Cohn, F., on the Contractile Filament of the Stamen in Thistles 190

XUM

Colonisation, the Place and Power of Natural History in, 125
Contractile Filament of Stamen in Thistles, 190
*Cribellites carbonarius*, 303
Davy, Dr John, on the Colour of the Salmon, 247
——— on the Eggs of Birds, 249
——— on the question, Is Oxide of Arsenic, being used in a very small quantity, injurious to Man? 43
Diatoms from the South Pacific described and figured, 34, 181
Dickson, Dr Alexander, Abstract of Cohn's Observations on the Contractile Filaments of the Stamens in Thistles, 190
Dredging Reports, 304, 305
Drift-beds at Mundesley, Norfolk, by Professor Phillips, 300
Earth-Currents during Magnetic Calms, 158
Earthenware, on the Manufacture of, by C. T. Maling, 290
Edmonds, R., on St Michael's Mount and the Phœnicians, 173
——— on the Bee-hive British Dwellings near Penzance, 187
Eggs of Birds, Contents of, 249
Electric Light, Illuminating power of, 334
Electrical Standards, 283
*Equisetum*, Canadian species of, by Professor Lawson, 324
Fingers, Toes, and Phalanges in Man, Variation in the Number of, 83
Fireball observed near Auchterarder, 160
Fire-Clay Goods, on the Manufacture of, by J. Cowen, 289
Firth of Forth, on the Evidence of the Rise of the Shores of, 161
Flint Implements at St Acheul, by Professor Phillips, 299
Flowering of Fruit-trees as in April 1863, 166
——— Spring Plants in the Open Air in the Edinburgh Botanic Garden, 163, 165, 324
Foraminifera new to the British Seas, 305
Forests, Great Mixed, of North America in connection with Climate, 244
Fossil Arctic Shells in the Basin of the Forth, 148
Glass, on the Manufacture of, by R. W. Swinburne, 290
Greville, Dr, Description of New Genera and Species of Diatoms from the South Pacific, 34, 181
Gun-Cotton, Report of Committee on, 291
Hector, Dr James, Exploration of New Zealand, 168
Herring, Trawling for, on the Coasts of Scotland, Report on, 112
Howard, J. E., on the Bark and Leaves of *Cinchona Succirubra* grown in India, 331
Hurlburt, J. B., LL.D., on the Great Mixed Forests of North America in connection with Climate, 244
Huxley, Professor, on Trawling for Herring in Scotland, 112
Jardine, Sir William, Contribution to Ornithology, No. V., 146
Kielder, Plants in the vicinity of, 328
Kjerulf, Theodore, on the Phenomena of the Scratched Rock Surfaces, 1
Lawson, Professor George, on *Lemania variegata* of Agardh, 30
*Lemania variegata* of Agardh, described, 30
Lichens, New British, by Rev. T. Salwey, B.D., 324
Lightning, Effect of, on Nelson's Monument, 152
Lindsay, Dr W. Lauder, on the Place and Power of Natural History in Colonisation, 125
Lucifer Matches, Experiments on, by Professor Abel, 291
Lyell, Sir C., on the Drift-beds at St Acheul, 301
Magnetic Changes and Earth-currents, 158
Malay Archipelago, Physical Geography of, 307
Man, Varieties of, in the Malay Archipelago, 317
Maxwell, Lieut.-Colonel, on Trawling for Herring in Scotland, 112
Military Budgets of English and French Armies for 1863–4, and statistically compared, by Colonel Sykes, 320

Mitchell, Dr Arthur, Collection of Popular Weather Prognostics of Scotland, 212
M'Nab, Mr James, Register of the Flowering of Spring Plants in the Open in the Edinburgh Botanic Garden, 163, 165, 324
Moon, Researches on the, by Professor Phillips, 284
Mosses of Fifeshire, by Charles Howie, 329
Murphy, Joseph John, on Revolving Storms, 234
Muscular Power, 194
Musical Sounds produced by Carbon, 297
Natural History, its Place and Power in Colonisation, 125
Nature-printing, an Easy and Effective Style of, 164
Negro, Physical and Mental Characters of, by Dr James Hunt, 315
New Zealand, Exploration of, 168
Nomenclature, Zoological, proposed Reform of, 260
Nitrate of Amyle, Physiological properties of, by Dr B. W. Richardson, 311
Noxious Gases and Vapours, mode of passing Unharmed through, by Dr White, 312
*Ophiolepis gracilis* (Allm.), 150
*Ophiuridan*, a New Fossil from Post-pliocene Strata of the Valley of the Forth, 149
Orchids, Fertilisation of, 322
Ornithology, Contribution to, 146
Otago, New Zealand, Place and Power of Natural History in the Colonisation of, 125
Oxide of Arsenic, its Effects on Man when long used in a very small quantity, 43
*Pandanus odoratissimus* in Flower in Edinburgh Botanic Garden, 162
Peach, Charles W., on the Fossils of the Boulder-clay of Caithness, 195
Phœnicians and St Michael's Mount, 173
Photoglyphic Engraving of Ferns, 326
Plant-house at Rockville, Blackrock, near Dublin, 240
Plants and Gases, reciprocal Action of, by R. Garner, 314
——— in Coal, Nova Scotia, by Dr Dawson, 298
Playfair, Huxley, and Maxwell, Report on the Operation of the Act relating to Trawling for Herring on the Coasts of Scotland, 112
Polyzoa, New British, by J. Alder, 304
Post-pliocene Fossils of Southern Norway, 1
Printing Telegraph, 287
Rogers, Professor W. B., on the Illuminating Power of the Electric Light, 334
Royal Physical Society, Proceedings of, 159
——— Society of Edinburgh, Proceedings of, 148
Rumbling Bridge, Plants in the vicinity of, 327
Salmon, Colour of, 247
Sars, Professor, on the Post-pliocene Fossils of Southern Norway, 1
Scientific Intelligence, 331
Scott, John, on the Fertilisation of Orchids in the Royal Botanic Garden of Edinburgh, 322
Scratched Rock Surfaces, 1
Skull Forms, Ancient British, Illustrations of the Significance of, 51
Smith, Dr Alexander, on a Fireball observed near Auchterarder, 160
Smyth, Professor Piazzi, Note as to Lead from the Roof of part of Nelson's Monument injured by Lightning on 4th February 1863, 152
Societies, Proceedings of, 283
St Acheul, Deposit of Gravel, Sand, and Loam, with Flint Implements, at, 299
Star 95 Herculis, on the Changing Colours of, by Professor Piazzi Smyth, 285
Stewart, Balfour, on Earth-Currents during Magnetic Calms, and their Connection with Magnetic Changes, 158
Stirling, Mrs, of Kippenross, on an Easy and Effective Style of Nature-printing, 164

St Michael's Mount and the Phœnicians, 173
Stomach, as regards the Action of its own Secretion during Life, by Dr Davy, 311
Storms, Revolving, 234
Struthers, Dr John, on Variation in the Number of Fingers and Toes, and in the Number of Phalanges, in Man, 83
Sun Spots, and their connection with Planetary Configuration. By Balfour Stewart, 285
Sun's Rays, Chemical Action of, by Dr F. L. Phipson, 296
*Syrrhaptes paradoxus*, irruption of into Britain, by A. Newton, 309
Talbot, H. Fox, on the Photoglyphic Engraving of Ferns, 326
Tate, George, on *Cribellites carbonarius*, 303
Tenebroscope noticed, 286
Titanium in Iron, by Dr Riley, 295
Toes and Fingers in Man, Variation in the Number of, 83
Vacuum, Effect of, on the entire Body, or a part thereof, by Dr Junod, 313
Wallace, Alfred R., on the Geographical Distribution of Animal Life, 306
——— on the Physical Geography of the Malay Archipelago, 307
——— on the Varieties of Man in the Malay Archipelago, 317
Weather Prognostics of Scotland, Collection of, 212
Wesmael, A., on the *Perigynium* or *Utriculus* of Carex, 325
Wilson, Professor Daniel, Illustrations of the Significance of certain Ancient British Skull Forms, 51
Zinc, Nickel, and Cobalt, in Cleveland Ironstone, by J. Pattenson, 295
Zoological Nomenclature, proposed Reform of, 260

# CONTENTS.

PAGE

1. On the Phenomena of the Scratched Rock Surfaces. By Theodore Kjerulf; with a Notice of the Post-Pliocene Fossils of Southern Norway. By Dr Sars, Professor of Natural History, Christiania, . . 1

2. Note on *Lemania variegata* of Agardh. By George Lawson, LL.D., Ph.D., Professor of Chemistry and Natural History in the Queen's University of Canada, 30

3. Descriptions of New Genera and Species of Diatoms from the South Pacific. By R. K. Greville, LL.D., F.R.S.E., &c. (Plate I.), . . . . 34

4. On the question, Is Oxide of Arsenic, long used in a very small quantity, injurious to Man? By John Davy, M.D., F.R.SS. Lond. and Edin., . . 43

5. Illustrations of the Significance of certain Ancient British Skull Forms. By Daniel Wilson, LL.D., Professor of History and English Literature, University College, Toronto, . . . . . 51

XUM

PAGE

6. On Variation in the Number of Fingers and Toes, and in the Number of Phalanges, in Man. By JOHN STRUTHERS, M.D., F.R.C.S., Lecturer on Anatomy in the Edinburgh School of Medicine. (Plate II.), . 83

7. Extract from Report of the Royal Commission (consisting of Professor LYON PLAYFAIR, C.B., Professor HUXLEY, and Lieut.-Colonel MAXWELL) on the Operation of the Acts relating to Trawling for Herring on the Coasts of Scotland. . . . . 112

9. The Place and Power of Natural History in Colonisation; with special reference to Otago (New Zealand). By W. LAUDER LINDSAY, M.D., F.R.S. Edin., F.L.S. and F.R.G.S. London. &c. (Concluded from last Number), . . . . . 125

*PROCEEDINGS OF SOCIETIES:—*

Royal Society of Edinburgh, . . . . 148

Royal Physical Society of Edinburgh, . . . 159

Botanical Society of Edinburgh, . . . . 162

*SCIENTIFIC INTELLIGENCE:—*
